

October 7, 2011

Dear Parents/Guardians,

Within our library, we have some great learning materials available. There are math games, flash cards, phonics games, and many other items that are valuable tools to help your children maximize their learning potential. These were all purchased with money made available through the Title I Program in conjunction with the Hazleton Area School District. If you are interested seeing what we have to offer, please stop by our school library. These materials can be signed out and used at your convenience.

Sincerely,  
Mr. Pavlick  
Mr. Kostic
