## Fund Allocation Details

Students may choose a \$5 tuition credit for each card sold OR \$10 credit toward any school activity. This includes student specific funding. For example, your child plays basketball and the team wants matching warm-ups. The warm-ups cost your family \$100. You can sell 10 cards and have the funds from the card sales pay for your student's warm-ups. **Please be specific when completing the form.** We will call if we have questions. Any forms that do not include a preference for where the funding goes, will automatically be credited to tuition.

**All forms and payment must be returned to the office!**
